

**EVERY WOMAN
EVERY MOTHER
EVERY DAUGHTER
NEEDS IRON
AT TIMES**

To help strengthen her nerves and
put color into her cheeks

DR. KING'S IRON TONIC

It is a well-known fact that men
of courage, men with brawn and
nerve to "buck the line" and go
"over the top" have rich, red blood
circulating through their veins. This
blood must contain about as much
iron as there is in a common ten-
penny nail. The red blood corpus-
cles must be fed on iron to have that
rich red color. The nerves are fed
on the red blood corpuscles, so when
you feel tired, worn out before the
day is half over, when pimples show
on neck or face, it's the danger
signal, time to repair the blood-cells.
It is fortunate that Dr. Pierce and
his staff of able physicians at the
Surgical Institute in Buffalo, N. Y.,
have found a combination of iron
and herbal extracts that gives the
stomach tone, fortifies the blood
with iron in a form that it can be
taken into the system. You need
energy and "pep" every day. You
can acquire it quickly by taking
"Iron-tic." This latest discovery
called, "Iron-tic," can be had at
most drug stores, in tablet form, at
sixty cents the vial. Send Doctor
Pierce's Surgical Institute in Buffalo,
N. Y., ten cents for trial package.

AIRPLANES COME IN ON DUE TIME

"Where did the aviators land?" This was the question that all Chattanooga was up against Friday at 12:30 when two machines came up the valley, landing somewhere—but where? Some of those who stretched their necks looking at the planes circle around the business section of the city and finally go down in North Chattanooga thought they fell in the river, while others were sure that the aviators landed in a nearby town. Who really guessed the right place—the Chattanooga Golf and Country club?—and members of the third liberty loan parade committee were practically the only ones who really knew it.

A large crowd awaited the landing of the two military aviators at Warner park, and when the time came for their arrival and no machines appeared, it began to be whispered around in the crowd that it was another camouflage staged by the parade committee. However, Fred Cantrell, the chairman, has made a free will statement that there will be no more stunts of a fake nature pulled off.

Promptly at 12:30 o'clock, the time scheduled for the aviators to arrive in Chattanooga from Huntsville, they came up the valley and circled around the landing and in five minutes were receiving greetings from Fred Cantrell, Baxter Bender and Clifton Cook in the middle of the golf links. Capt. A. L. Richmond was in charge of one machine and Lieut. F. B. Hagerty was in charge of the other. Sergt. P. J. Morcy rode with Lieut. Hagerty and Sergt. E. J. Curry with Capt. Richmond, acting as mechanics.

No Mishaps on Journey.
The two aviators were en route from

NATURE PRODUCES AN ASSIMILABLE IRON

**What Chemists for Years
Sought to Achieve Has Been
Found in a Natural Min-
eral Deposit.**

It has long been a recognized fact that iron was the greatest blood-and-tissue builder conceivable. For years chemists endeavored to find an assimilable, digestible form of iron, but their nearest approach was an inorganic, tooth-destroying, constipating and indigestible product, which frequently did more harm than good.

At last an assimilable iron was found in a natural mineral deposit, which, while it is analyzable by chemists, entirely balks their efforts to reproduce artificially. By its use, thousands of anemic, underweight, rundown people have been completely restored to normal health within two or three weeks' time.

While its cost is a mere trifle, the distributors of this marvelous remedy, the Ferronide Chemical Corporation, are so confident of its success that they unqualifiedly guarantee it to do what is claimed for it, or your druggist will promptly refund its purchase price.

A-I-M is in no sense a patent medicine or secret remedy. It is a natural mineral water, containing all the health-producing, tissue-and-blood building properties of a purely organic iron. Messrs. Froehling & Robertson, the well-known chemists of Richmond, Va., after a thorough analysis of this product, officially certify that the following ingredients compose A-I-M:

Ferric Sulphate, Alumic Sulphate, Manganic Sulphate, Magnesium Sulphate, Calcium Sulphate, Sodium Sulphate, Sodium Iodide, Sodium Phosphate, Silicic Acid, Free Sulphate Acid.

This is what these famous chemists say of the remedy:

"The combination of the mineral constituents shows a most valuable preparation. It contains in addition to a large amount of Iron Sulphate, a very desirable quantity of Aluminum Sulphate and smaller amounts of Magnesium and Sodium Sulphate, which counteract any tendency to constipation. We also find small amounts of Iodide of Soda and Phosphate of Soda, which add to its medicinal value.

"In our opinion the possibilities for this preparation are unlimited, and while we do not believe in a universal panacea, we would expect a marked benefit by the use of Ferronide. We would suggest its use in all cases of anemia and general debility; in many if not all stomach troubles."

Acid Iron Mineral is on sale by all progressive druggists in the United States, Canada and Great Britain. The Fritts & Wichi company, wholesale distributors for Chattanooga and vicinity.—(Adv.)

SHE USED TO BE GRAY

Society Ladies Everywhere
Use "La Creole" Hair
Dressing.

The well-known society leader's hair was prematurely gray, perhaps just like yours, but Mrs. Jones heard of "La Creole" Hair Dressing—how thousands of people everywhere had used it with perfect satisfaction. It is not a dye, out a preparation designed especially for the purpose of gradually restoring color to gray or faded hair, and which is easily applied by simply combing or brushing through the hair. "La Creole" Hair Dressing positively eradicates dandruff, keeps the scalp in a healthy condition and promotes the growth of new hair; brings back a natural, soft, even, dark shade to gray or faded hair, and makes it lustrous, full of life and beautiful. "La Creole" Hair Dressing is sold and guaranteed by all good drug stores everywhere, or sent direct for \$1.25 by Van Vleet-Mansfield Drug Co., Memphis, Tenn.—(Adv.)

Be Cheerful.
It is not so easy to be cheerful when one is ill. We may, however, seek the cause of our despondency and perhaps remove it. When it is caused by indigestion or constipation, as frequently the case, Chamberlain's Tablets may be depended upon to correct it in almost every instance.—(Adv.)

Memphis to Chattanooga. Capt. Richmond stated they left Huntsville at 11 o'clock and arrived in Chattanooga at 12:30, having made the trip in one hour and a half. Since leaving Memphis they made two stops before reaching Chattanooga, one at Corinth, Miss., and the other at Huntsville, Ala., where they spent Thursday night. They made the trip from Memphis to Chattanooga in 4:35. The two stops were made, as explained by the captain, due to the fact that the machines hold only enough gas for a two hours' run.

Capt. Richmond said that the clouds were very low during their flight from Huntsville here, and that this made it necessary for them to come up the valley at about 1,000 feet. The captain also said the weather had been more favorable he felt that they could have made the flight in even a better record than they had contemplated.

Both Capt. Richmond and Lieut. Hagerty have been flying for the past two years and gave the appearance of well-trained aviators when they made a beautiful landing at the Country club. They came from the Georgetown university, near Washington, D. C., where they received their training. Lieut. Hagerty is not only an aviator, but he is also the honors for breaking the United States high jump record.

Both of the machines are of the same type, being very much like the one Miss Stinson made her appearance in last year during the Chattanooga District fair. However, they were not Red Cross planes, but are only used for training. They cost about \$5,000 and weigh about 1,700 pounds, making a record of about sixty-five miles an hour. They have the colors of the allied nations painted on the rudder.

Aviation Corps.
The two aviators are members of the aviation corps of the United States army. They wore regular khaki uniform with the aviators' insignia. They were taken to the Hotel Patten, where they received lunch, after which they returned to their machines at the country club and made a flight over the grounds at Warner park.

Owing to the fact that the park had been pretty well dug up for the trenches, it was deemed best that the landing place be changed from the park to the club grounds. However, it was the intention of the committee in charge to have the planes land in the center of the park. When it was found that the landing was not desirable the committee marked off the grounds at the Country club with a huge white cross in the center of the field, with two large sheets on either side of the cross to mark the landing place. While the two aviators had never been to Chattanooga before, they had no trouble at all in finding the location. After they alighted from their machines, each displayed two maps of Chattanooga, and with these, together with instructions to watch out for landing near the two bridges, they found their way.

Capt. Richmond and Lieut. Hagerty will remain in Chattanooga over Saturday, coming here primarily to attend the wedding of Miss Josephine Colyer, who is to be married Saturday evening to their commanding officer.

JIM LARIMORE PLEADS GUILTY

Jim Larimore, against whom two indictments were returned by the federal grand jury in connection with sales of whisky made to soldiers at the Beavers' club, pleaded guilty to both charges Friday morning. His attorney, ex-Senator W. H. Cummings, asked that sentence be deferred until 9 o'clock Saturday morning in order that his client might attend to some business matters before beginning his sentence. This request was granted.

It will be remembered that Capt. Kern's men raided the Beavers' club some months ago and quite a sensation was created at the time. The grand jury which concluded its work Thursday also returned an indictment against Sam Jones, an ex-prominent politician, but Mr. Jones has been found to be absent from the city on "important business."

Capt. Kern stated Friday that depositions of all soldier witnesses had been taken and the fact that these men will likely be in France at an early date will not preclude the case from coming to trial at the next term of federal court.

In the case of Ben McGhee and Pazonna McGhee, or Pazonna Cosby, which was on trial Thursday when court adjourned, Judge Sanford instructed the jury to return a verdict of not guilty on several counts contained in the indictment, and only two counts, that of conspiring to evade the military service law and the indictment of Pazonna for a false affidavit, were presented to the jury. Ben and Pazonna are neat-appearing, intelligent negroes and their principal trouble, as stated by Judge Sanford in handing down the sentence, is that they have been rather careless about living with other people's husbands and wives. Ben had a real, regular wife at one time, also a child. If he had stuck to his first matrimony and turned a deaf ear to the siren call of Pazonna all would have been well and he would not now be facing a term of fifteen months in the federal prison at Atlanta. Neither would he have been subject as yet to military duty. When he gets out of the penitentiary, if the war is still on, he will more than likely get into uniform. Pazonna might have escaped all this trouble, too, if she had remained with her lawful wedded husband and let Ben pursue the even tenor of his way. Now, however, she faces a vacation of six months in the Hamilton county jail. The jury in this case was out only a short time and returned a verdict of guilty on both counts.

Ben was gallant enough to try to take all the blame on himself, but he couldn't get away with it. He claimed to have forged Pazonna's name to his questionnaire, and the question of handwriting was entered into the matter. Ben submitted a sample of his writing, and if he didn't sign Pazonna's name originally he has managed to acquire the art of forgery to a marked degree since that time. A mistrial resulted in the case of A. H. Brown, charged with having sold liquor to a soldier in uniform. His defense was that he merely procured the whisky.

John Dockery, a white man, who is far below normal as to intelligence, pleaded guilty to having made a false affidavit in a pension case and was sentenced to seven months in the Greene county jail.

Aeroplanes Collide; Three Officers Killed

London, April 25.—Two aeroplanes collided near South Kent last night, killing three flying officers, according to a dispatch from that town today.

MYSTERY SURROUNDS SUICIDE OF R. F. COOLEY

**Former Law Partner Believes
Dead Due to Persecution of
Some Unknown Person.**

(Special to The News.)
Knoxville, April 26.—Imagination that mysterious persons had pursued him caused Richard F. Cooley, United States internal revenue officer, to shoot himself. Is the opinion of Maj. T. S. Webb, former law partner.

"Mr. Cooley came to my office Wednesday morning about 11 o'clock, asking for protection from people whom he claimed had pursued him from the Pacific coast to New York and then back here. He told me that people everywhere he went had slandered him and snifted contemptuously at him, and that strangers on the street had been taught that he was a bad and dangerous man, and would make unpleasant remarks as he passed.

"He told me that he left Chattanooga Tuesday night, because a crowd had gathered around him for over an hour trying to soothe him, but to no avail. In other respects than that he believed he was being pursued and persecuted, he appeared to be perfectly all right."

UNION INDISSOLUBLE

**Bessarabia and Rumania Now
One, Says Envoy.**

(Staff Correspondence of New York Tribune.)
Washington, April 25.—The union of Bessarabia with Rumania is "definitive and indissoluble," according to information furnished to the state department today by the Rumanian legation. The Rumanian minister, Dr. Constantin Angelesco, has resigned, and the following communication was delivered to the department by the charge d'affaires, N. H. Lohavary:

"On April 9 the national assembly of Bessarabia voted by 86 against 3 for union of Bessarabia to Rumania. The Rumanian premier was then at Kishineo (capital of Bessarabia) and took cognizance of the vote amid enthusiastic acclamation, and declared this union to be definitive and indissoluble."

"Bessarabian delegates went to Jassy on April 12 to present the homage of the people of Bessarabia to their majesties the king and queen of Rumania. A Te Deum was sung at the cathedral in the presence of the royal family, the government and the Bessarabian delegates. The Archbishop of Bessarabia was also there, having taken the place next to the Metropolitan of Moldavia, who celebrated the service.

"After the ceremony was over, a parade of troops took place, followed by a luncheon given at the royal palace in honor of the ministers of Bessarabia."

The Right Laxative For The Little Ones---

The natural condition of a child is to be happy and carefree. When the girl mopes and is indifferent to school and study, or the boy is sullen and refuses to go out and play; the child needs a laxative to empty the bowels and stir up the liver.

But something should be given that will produce the result in as simple and natural a way as possible. Harsh cathartics and physics are neither necessary nor desirable.

Many mothers have found that the combination of simple laxative herbs with pepsin sold by druggists under the name of Dr.

Caldwell's Syrup Pepsin produces a free movement of the bowels without griping. A very little is required, and it is pleasant to take. A few hours after its use the child will be its happy self again.

It is an excellent remedy for the mother herself, and for the other members of the family, in obstinate or occasional constipation, for the relief of headaches, as an aid in colds and fevers; minor skin eruptions and all disorders where the basis of the trouble is constipation.

The druggist will refund the money you pay for Syrup Pepsin if it fails to do as promised.

Dr. Caldwell's SYRUP PEPSIN The Perfect Laxative

NO INCREASE
In spite of enormous increased laboratory costs due to the war the manufacturers of Dr. Caldwell's Syrup Pepsin are sacrificing their profits and absorbing the war taxes so that this family laxative may remain at the pre-war price of 50c and \$1 a large bottle. So sold by druggists for 25 years.

FREE SAMPLES
Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in America. If you have never used it and would like to sample it before buying, send your address for a free trial bottle to Dr. W. B. Caldwell, 466 Washington St., Monticello, Ill. If you have on hand the family fund for a copy of "The Care of the Baby."

ECZEMA CAUSED YEARS OF INTENSE AGONY

"I have suffered intense agony from eczema on my leg and other parts of my body for years, and received only temporary relief from other preparations. It is only a month since I started to use PETERSON'S OINTMENT, and there is no sign of eczema or itching. You can refer to me."—Geo. C. Talbot, 27 Pennfield St., Buffalo, N. Y.

"I've got a hundred testimonials, says Peterson, just as sincere and honest as this one. Years ago, when I first started to put out PETERSON'S OINTMENT, I made up my mind to give a big box for a small price, and I'm still doing it, as every druggist in the country knows. I guarantee PETERSON'S OINTMENT because I know that its mighty healing power is marvelous. I say to every one who buys a box that it is rigidly guaranteed for eczema, pimples, salt rheum, Old Sores, Blind Bleeding and Itching Piles, Ulcers, Skin Diseases, Chafing, Burns, Scalds and Sunburn, and if not satisfactory any druggist will return your money, 30 cents.
